Bangalore, India

LinkedIn

Profile Summary

Impact-focused **Java & PL/SQL Developer** with **6+ years of experience** designing, optimizing, and maintaining enterprise-grade applications. Proven success in **boosting performance by 30%**, **automating workflows**, and improving **database reliability** through clean, scalable code. Adept at collaborating across Agile teams to deliver robust, maintainable software that drives measurable business outcomes.

Core Competencies

Software Development • Java Programming • Spring Boot • SQL Optimization • CI/CD Pipelines • Jenkins • Git • Agile & Scrum Methodologies • Shell Scripting • Automation Frameworks • Incident Management • Root Cause Analysis • Splunk • Dynatrace • Performance Monitoring • Application Support • Microservices Architecture • Oracle Database • Code Review & Quality Assurance • Troubleshooting • API Development • SDLC Best Practices

Skills

Languages:
Java, PLSQL, JavaScript, HTML, CSS, Perl

Cloud Platforms:
Azure (Basic Experience)

Scripting:
Shell Scripting, Perl

Frameworks:
Spring, Hibernate

Monitoring & Logging:
Splunk, Dynatrace, Autosys, Informatica, DataStage

Development Tools:
Eclipse, Oracle SQL Developer, SoapUI, Putty, Toad, Active Console

DevOps & CI/CD:
Jenkins, Git

Databases:
Oracle, Microsoft SQL Server, Teradata

Version Control
GitHub, IBM ClearCase

Professional Experience

03/2023 – Present
Bangalore

Accenture, *App/Cloud Support Senior Analyst*

- Engineered and automated incident management workflows using **Shell scripting and Splunk alerts**, reducing manual troubleshooting time by 40%.
- Monitored application health using **Dynatrace and Splunk** dashboards, proactively identifying and resolving performance bottlenecks.
- Ensured 99.9% uptime by handling after-hours production incidents and **driving root cause analysis for recurring issues**.
- Authored **standard operating procedures (SOPs)** and knowledge base articles to streamline onboarding and reduce ramp-up time for new hires.
- Optimized **SQL queries and PL/SQL stored procedures**, improving database performance by 30% and ensuring faster response times.
- Automated maintenance tasks using Shell scripting and **PL/SQL jobs**, reducing manual workload by 40%.

- Troubleshot and resolved **production issues** using Splunk and Dynatrace, maintaining 99.9% application uptime.

12/2018 – 03/2023
Bangalore

Cognizant Technology Solutions, *Software Engineer*

- Designed and developed reusable **Java modules and SQL procedures** to enhance application performance and maintainability.
- Built and integrated **RESTful APIs** with backend services using **Java** and Spring Boot, ensuring robust data exchange and scalability.
- Automated **Oracle database** maintenance using **Perl scripts and cron jobs**, reducing manual intervention by 80%.
- Implemented continuous integration using **Jenkins and Git**, improving deployment efficiency by 50%.
- Led modernization of legacy applications, upgrading **Oracle databases from 12C to 19C** and ensuring smooth migration with zero downtime.
- Conducted **code reviews**, implemented static code analysis tools, and **improved defect detection** by 35%.
- Mentored junior developers on **clean coding principles**, **version control**, and **Agile development practices**.
- **Recognized as Top Performer** for delivering optimized backend solutions and modernization initiatives.

Key Projects

Splunk Alert Automation
Implemented proactive error detection alerts to reduce production downtime by 25%.

Jenkins CI/CD Pipeline Setup
Automated build, test, and deployment processes for microservices, cutting release time in half.

Incident Data Automation Tool
Developed Python/Shell scripts to automatically retrieve and log incident data from ticketing systems, saving 10+ hours weekly.

Data Quality Reporting Dashboard
Created automated SLA and compliance dashboards for incident tracking using SQL and Excel macros.

Database Cleanup Automation
Deployed Perl-based cleanup scripts that maintained optimal Oracle database performance and data hygiene.

Education

08/2014 – 06/2018
Bangalore

Bachelor of Engineering (B.E.), *Reva Institute of Technology and Management*
Electronics and Communication Engineering

Certificates

Certified in Java with Testing: ABC Technology Training & Upskill
Gained hands-on expertise in Java, SQL, and Manual Testing through project-based certification, strengthening skills in development, debugging, and test execution

Microsoft Office Tools Certification
Enhanced productivity and data management efficiency through advanced use of Word, Excel, and PowerPoint.

Introduction to Spring Framework - In Progress
Gained hands-on understanding of building scalable and maintainable Java applications using Spring Core and Spring JDBC modules.
